

BELLE HARBOR™

COLORBODY™ PORCELAIN TILE | RECTIFIED | 3D PRINTING TECHNIQUE

RAGNO®

ARTFULLY REIMAGINED™

INFUSE MODERN SPACES WITH CLASSIC BEAUTY

Belle Harbor's stunning linear fusion capitalizes on a complex blend of inspirational elements to energize residential and commercial venues. This ColorBody™ rectified porcelain combines the look of North African limestone with the cultured sophistication of a linear marble aesthetic. Intricate, fluid veining imparts a sense of movement as it interplays with gorgeous neutral shading, creating a stunning design canvas that naturally pairs with other project elements. Layer in the striking mosaic designs to add visual interest with delicate detailing.
