

Pratt & Larson Mosaic Patterns

We're very pleased to launch our newly reorganized **Mosaic Collection** with you. Recent designer and customer requests encouraged us to start producing our mosaics with tighter grout joints for installation. The new display boards featured in this brochure reflect this cleaner, tighter grout joint. This brochure also contains mosaic pattern codes and line drawings organized by price group.

We continue to pride ourselves on being the most flexible, custom, handmade tile factory in America. Our mosaic offering highlights this flexibility as any pattern can be ordered in multiple colors for the same base price (excluding metallic upcharges). This allows for an infinite number of color combinations!

Please visit our website www.prattandlarson.com to locate a dealer near you.
